Asbestos contractor (DoL)	RAC/OHH-CI138/2022
Website	www.wagma-sheq.co.za

"Our approach primarily focuses on meeting legislative requirements and relevant standards — while empowering organisations to manage HSE themselves."

COMPANY OVERVIEW

SAFETY IS A CULTURE. WE BUILD IT.

Wagma SHEQ Consultancy helps organisations across South Africa meet their Safety, Health, Environmental and Quality obligations — and build the in-house capability to keep meeting them.

We support industry in the development, implementation and training of Safety, Health, Environmental and Quality Management Systems, and conduct environmental surveys and impact assessments. We also supply environmental, health and safety products, including Personal Protective Equipment (PPE).

Our approach focuses first on meeting legislative requirements and relevant standards, while empowering each client with the knowledge to understand and manage Health, Safety and Environment (HSE) on their own terms.

Our capabilities rest on qualitative and quantitative methods, and on proactively delivering advice and solutions. We give our people the responsibility and the opportunity to make a real difference in the industry.

Several of our founders worked as freelance consultants before the company was established in 2013. Those engagements, and the roles they have held in industry, give Wagma a broad base of skills, knowledge and interests that shape every programme we deliver.

AT A GLANCE

2013
Established and registered in South Africa

3
Regional offices — Gauteng, Eastern Cape and KwaZulu-Natal

8+
Sectors served, from construction and healthcare to chemicals and container terminals

DoL
Registered asbestos contractor with the Department of Labour

OUR VISION

EMPOWERING HEALTH, SAFETY & ENVIRONMENTAL CULTURE FOR EXCELLENCE.

OUR MISSION

To develop leaders and talent that create a positive HSE influence in organisations.

CORE VALUES

01

ANALYTICAL

Qualitative and quantitative methods that deliver advice grounded in evidence.

02

PASSIONATE

Innovative, skilled and experienced people committed to work of the highest quality.

03

STIMULATING

We transfer knowledge so organisations can manage HSE themselves.

THREE DISCIPLINES, ONE PARTNER

WHAT WE DO

Every engagement draws on the same three disciplines. Most clients need all of them, so we deliver them as one integrated SHEQ service.

01

SAFETY & HEALTH

We hold a zero-tolerance attitude towards non-compliance with safety procedures and policies. Our behaviour-based approach consistently reinforces a positive attitude to health and safety.

02

QUALITY

Quality is never an accident; it is always the result of intellectual effort. We apply the ISO 9001 Quality Management System throughout our own organisation, and help clients do the same.

03

ENVIRONMENT

We take environmental responsibility seriously, continually looking for ways to reduce our footprint and to strengthen the environmental management processes of every client we serve.

PHASE OF A HEALTHY ORGANISATION

Safety measures, alertness and conformance with health, safety and environmental requirements matter in every process, activity and service — in line with current legislation and the requirements of national and global standards such as Responsible Care.

SERVICE 01

HEALTH & SAFETY

With new and changing legislation, a rise in civil and criminal claims and increasing premiums, organisations need ongoing access to health and safety expertise.

A **SHEQ advisory support**

A dedicated consultant tailors the exact support you need — technical expertise or practical guidance — with ongoing access to expert advice on site, by email or by phone.

B **Hands-on consultancy**

Our consultants visit your workplace at least twice a year as part of our Business Safe service, focusing on the areas that concern you most and offering sensible, industry-informed solutions.

C **Construction Design & Management (CDM)**

As an independent third party, we help clients, principal designers and principal contractors meet their legal duties and manage construction safety risk effectively — including appointments as client SHE Agent.

SERVICES INCLUDE

- Health & safety packages
- Health & safety training
- Health & safety documentation and SHE files
- Health & safety guidance
- Health & safety assessments
- Health & safety certification
- Occupational Safety & Health audits
- Incident and accident investigation
- Emergency planning & disaster recovery
- First aid and HIV/AIDS awareness

SERVICE 02

ENVIRONMENTAL

An organisation's environmental impact is now more of a responsibility than ever. Assessing and reducing the impact of day-to-day activities starts with an Environmental Management Plan.

A **ISO 14001 management systems**

We audit your environmental management system against externally certified standards and help you close the gaps ahead of certification.

B **Impact assessments & authorisations**

Environmental Impact Assessments, Environmental Management Plans (EMPr), environmental authorisations and Water Use Licence applications that satisfy NEMA and the National Water Act.

C **Audits, monitoring & surveys**

Independent environmental audits, water sampling, licence compliance audits and environmental surveys — including solid and hazardous waste management.

SERVICES INCLUDE

- Environmental Impact Assessment (EIA)
- Water Use Licence Applications (WULA)
- Ecological assessments
- Environmental Management Programmes (EMPr)
- Environmental monitoring
- Environmental hygiene
- Environmental audits
- Hazardous waste management
- Environmental training & documentation

SERVICE 03

QUALITY & MANAGEMENT SYSTEMS

Quality standards are central to every modern organisation. We put in place a quality management process that conforms today and keeps adapting as standards, people and technology change.

A **ISO accreditation**

Certification is good for your business and the wider world. We become your long-term partner, taking ongoing responsibility for your management systems.

B **Seamless integration**

New processes are integrated efficiently into your organisation, so you continue to adapt as standards, personnel and technology evolve.

C **Gap analysis & audits**

Legal compliance reviews, gap analyses and audits against ISO 9001 and integrated standards — delivered through our own quality system for cost-effective, pragmatic results.

STANDARDS WE WORK TO

ISO 45001	OH&S
ISO 14001	Environment
ISO 9001	Quality
ISO 50001	Energy
ISO 19011	Auditing
OHSAS 18001	OH&S (legacy)
HSG65	H&S management

FULL SERVICE CATALOGUE

SPECIALIST SERVICES

From a single risk assessment to a complete integrated management system, every assignment is managed through our quality system to deliver pragmatic solutions within your timescales.

01

PROFESSIONAL SERVICES

- Preliminary / initial safety review
- Process Safety Management (PSM)
- Fire safety
- Fire risk assessment & protection plans
- Emergency planning & disaster recovery
- Policy & legislative compliance
- Construction Design Management
- Occupational hygiene

02

ENVIRONMENTAL SERVICES

- Environmental Impact Assessment (EIA)
- Water Use Licence Applications (WULA)
- Ecological assessments
- Environmental Management Programmes (EMPr)
- Environmental monitoring
- Environmental hygiene

03

RISK ASSESSMENTS

- Manual handling
- Fire
- Workplace transport
- Working at heights
- Hazardous substances (COSHH)
- HAZOP studies
- Explosive atmospheres (DSEAR / ATEX)
- Hazardous Area Classification
- Display screen equipment
- Environmental

04

AUDITS & COMPLIANCE

- Legal compliance review
- Gap analysis — ISO 14001, ISO 45001, OHSAS 18001, HSG65
- H&S and environmental audits
- SHE file compilation & review
- Contractor vetting

SUPPLY

PPE & SAFETY PRODUCTS

We supply environmental, health and safety products and Personal Protective Equipment — specified by consultants who understand the hazard, not just the catalogue.

SERVICE 04 · REGISTERED CONTRACTOR

ASBESTOS REMOVAL

DEPARTMENT OF LABOUR

Registered and approved asbestos contractor

RAC/OHH-CI138/2022

Asbestos is a group of six naturally occurring fibrous silicate minerals that resist heat, fire and electricity. All six are known human carcinogens.

We provide proper identification, classification, handling, transportation and disposal in terms of the Asbestos Abatement Regulations, from initial inventory and risk assessment through to safe disposal and air monitoring.

Wagma teams during asbestos roof removal.

SCOPE OF WORK

- Asbestos identification, inventory & risk assessment
- Asbestos management plans
- Site establishment & decontamination showers
- Asbestos abatement & removal
- Demolition
- Transportation & safe disposal
- Air monitoring

SELECTED ASBESTOS PROJECTS

- Nampo Combined School — removal & safe disposal
- Ithemoheng Primary School — removal & safe disposal
- Small Enterprise Finance Agency (SEFA), Port Elizabeth offices — removal & safe disposal
- Oviston Nature Reserve, Gariep — identification, inventory, risk assessment, management plan and air monitoring

OUR APPROACH

THE ROUTE TO SUCCESS

Before we propose anything, we take time to understand your business — its situation, its challenges and the benchmarks in your industry. Only then do we recommend a route. Most engagements follow four stages.

01

ASSESS

Legal compliance reviews, gap analyses and risk assessments establish exactly where you stand.

02

PLAN

We design the policies, processes and management systems that fit your operation and your standards.

03

IMPLEMENT & TRAIN

Our consultants coach and mentor your people so the right behaviours are embedded at every level.

04

AUDIT & IMPROVE

Independent audits and assurance keep you compliant as standards, personnel and technology evolve.

INTERVENTIONS MAY INCLUDE

01 Facilitating key people to set HSE purpose and goals

02 Surveys and focus-group interviews

03 Training and workshops

04 Developing or modifying HSE programmes to deliver cost-effective value

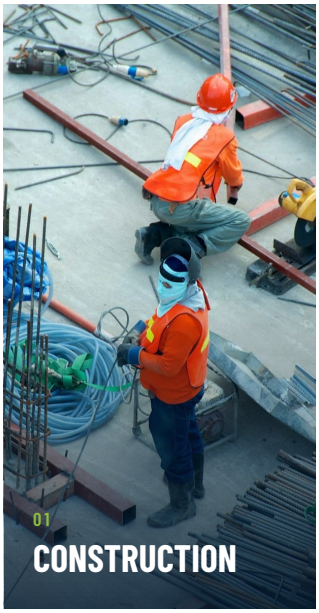

WHAT YOU GAIN

- Reduced loss and damage to assets
- Lower absence through sickness, accidents and incidents
- Reduced risk of fines and prosecution
- Higher staff morale through better working practices
- Better risk management across the supply chain

SECTORS

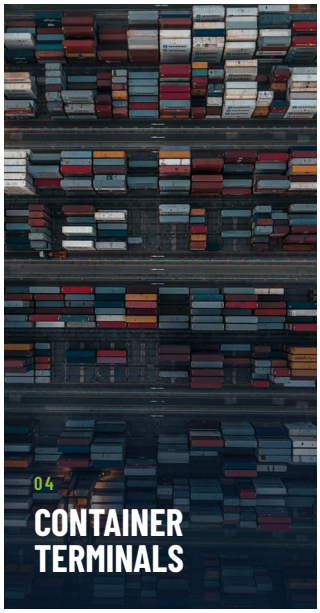

INDUSTRIES WE SERVE

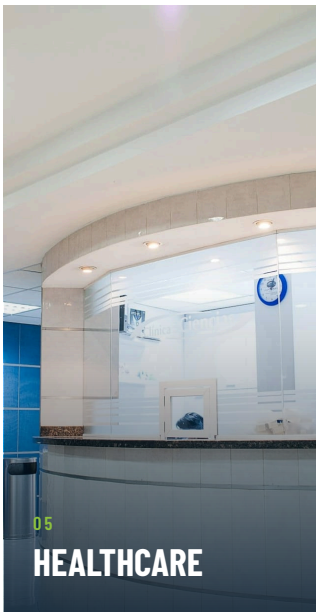

Hazards differ from sector to sector, and so does the legislation. Our consultants bring direct, on-site experience of each of the environments below.

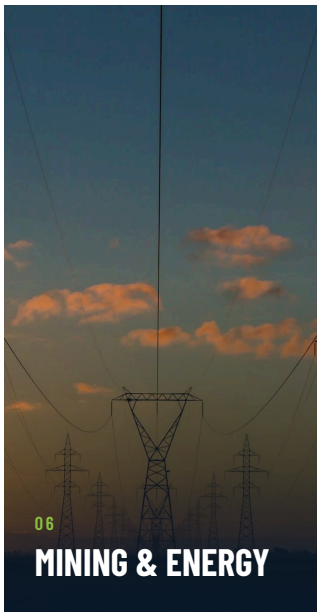

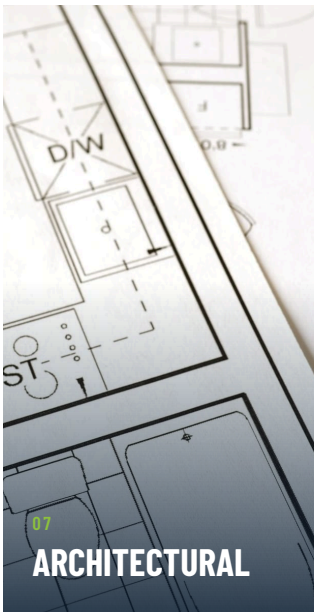

NATIONAL REACH

Offices in Gauteng, the Eastern Cape and KwaZulu-Natal · on-site training in all nine provinces · virtual training worldwide

TRACK RECORD · 2013 — PRESENT

MORE THAN R2 BILLION OF PROJECTS KEPT SAFE.

Combined value of the construction, healthcare and infrastructure projects on which Wagma has acted as SHE agent, auditor or OHS consultant — from rural access roads to provincial hospitals.

PEOPLE & STRENGTH

OUR PEOPLE

Our consultants are innovative, skilled and experienced professionals, registered with South Africa's leading construction, safety and environmental bodies.

ANDREW MAGOMBEDZE
Principal SHEQ & Fire Risk Consultant

INNOCENT BHAIKWA
SHEQ Professional

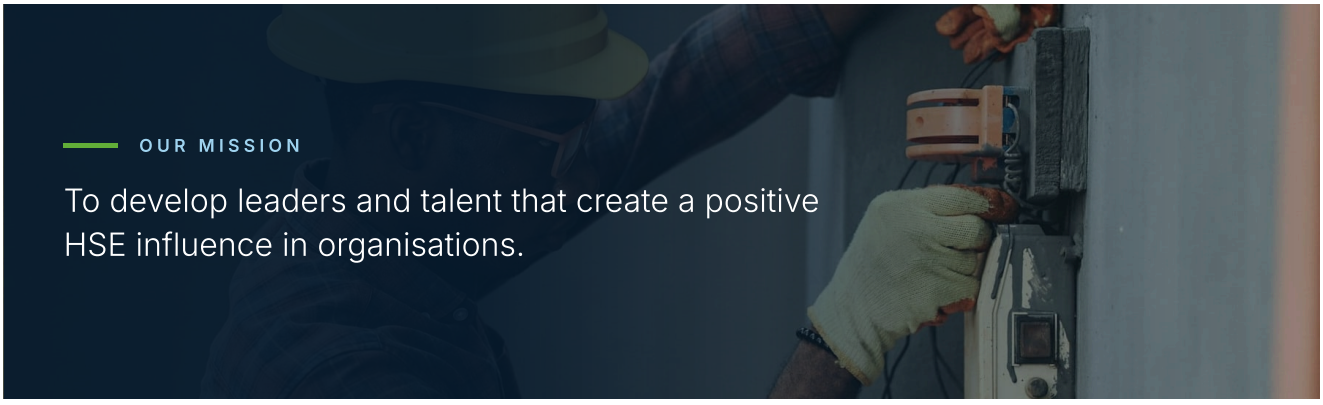

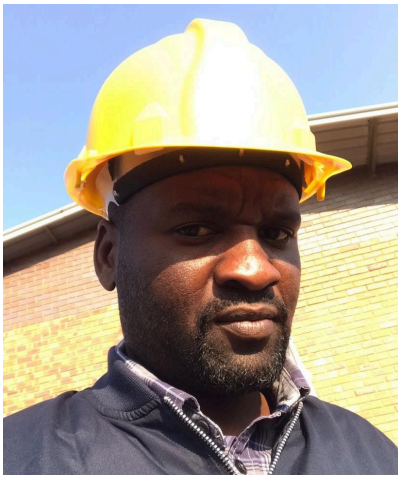

ANTON PRETORIUS
SHEQ Consultant

PROFESSIONAL REGISTRATIONS HELD

SACPCMP | SAIOSH | IOSHSA | IRMSA | ACHASM | NOSA

Qualifications across the team include NEBOSH, SAMTRAC (NOSA), BSc (Hons) Environmental Science, SHE incident investigation, fall protection planning and confined space entry.

ANDREW MAGOMBEDZE

PRINCIPAL SHEQ & FIRE RISK CONSULTANT

An experienced manager with a strong background in environmental, safety and health consultancy, and more than twelve years of proven expertise in management, environmental consultancy and quality assurance across industry and academia. Andrew identifies, analyses and solves problems, coordinates internal teams and raises customer satisfaction through programme development, training strategy and consulting.

BSc (Hons) Environmental Science, Bindura University · Introduction to SAMTRAC and SAMTRAC · Combined ISO 14001 & 18001 · Internal Auditor · Confined Space Entry & Rescue · SHE Incident Investigation Level 3 · First Aid Level 1 & 2 (all NOSA) · Currently studying the NEBOSH International Diploma in OH&S

REGISTRATIONS

- SACPCMP — Construction Health & Safety Manager, CHSM/943/2019
- Institute of Risk Management South Africa (IRMSA) — Member

EXPERTISE

- Fire risk assessment & protection plans
- Environmental Impact Assessment
- Environmental Management Plans
- SHE inspections & audits
- ISO 14001 management systems
- Occupational health & safety
- Incident investigation
- SHE files
- HIV/AIDS awareness & life skills

INNOCENT BHAIKWA

SHEQ PROFESSIONAL

Almost nine years in Health, Safety and Environment, working in the manufacturing and construction industries as an HSE practitioner. Innocent's ability to analyse a problem and explain the situation clearly makes him a valuable asset to every Wagma team.

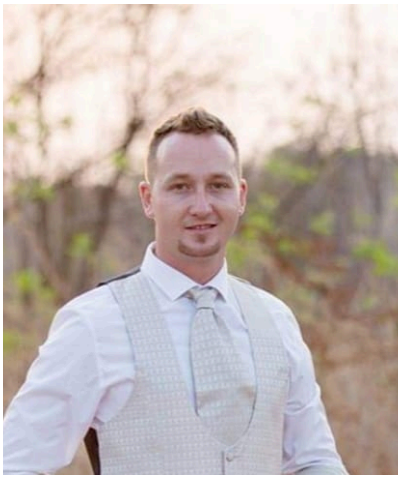

BSc (Hons) Environmental Science, Bindura University · Introduction to SAMTRAC and SAMTRAC (NOSA) · Diploma in Workplace Health & Safety (Alison) · Work at Heights / Fall Arrest · Fall Protection Planner · Currently studying BCom Financial Management (UNISA)

REGISTRATIONS

- SACPCMP — Construction Health & Safety Manager, CHSM/915/2019
- SAIOSH — Occupational Health & Safety Professional
- IOSHSA — Graduate member
- ACHASM — Member

EXPERTISE

- HSE management systems
- Environmental Impact Assessment
- Environmental audits
- Hazardous waste management
- Environmental Management Plans
- Occupational health & safety
- SHE files & audits
- HIV/AIDS awareness & life skills

ANTON PRETORIUS

SHEQ CONSULTANT

An experienced construction health and safety officer specialising in the petrochemical industry, with more than six years' experience across signage, manufacturing, retail, motor, mining and petrochemical operations. Anton has developed, implemented and monitored complete safety management systems, and handled client representation, site management, quality management and contractor vetting.

Introduction to SAMTRAC and SAMTRAC · HIRA · SHE Representative · Root Cause Analysis (RCAT) · Fall Arrest & Rescue · Fall Protection Plan Developer · First Aid Level 1 & 2 · Fire Fighting · Confined Space Entry · Scaffold Erector & Inspector · ITIS Train the Trainer · Gas Testing · Currently studying the NEBOSH International Diploma

REGISTRATIONS

- SACPCMP — Construction Health & Safety Officer, CHSO/1135/2017

EXPERTISE

- H&S management plans
- Fall protection plan development
- Safety management system implementation
- HAZOP studies
- ATEX zone task analysis
- Hazard identification & risk assessment
- SHE audits & incident investigation
- OHS consulting & training

FACE-TO-FACE & E-LEARNING

SAFETY TRAINING
